SUMMARY

As a Front-End Engineer, I build web and mobile apps. Skilled in TypeScript, React, React Native, and Angular. I focus on performance, reliability, and reusable UI components. I ship features end-to-end, write tests, and contribute to CI/CD pipelines for smooth releases. Outside my core role, I design, implement, and operate Back-End services in personal projects using Go (*Fiber*), Node.js (*Express*), and C# (*.NET*).

PROFESSIONAL EXPERIENCE

Front-End Engineer, LC Waikiki

Jul 2022 - Present

- Shipped **6 web** and **3 mobile** apps using TypeScript, React, React Native, and Angular.
- Lifted key screens to Lighthouse **90+** via code splitting, lazy loading, and render optimizations.
- Built and maintained a reusable UI component library (*MUI/Tailwind*) to standardize UX and accelerate feature delivery.
- Added unit and integration tests (*Jest/Vitest*), improving stability and reducing regressions.
- Integrated REST APIs and collaborated with Back-End and QA to deliver features end-to-end.
- Optimized Azure DevOps CI/CD pipelines, cutting release time and increasing release cadence.

Software Developer Trainee, Wissen Akademie | BAU

Oct 2021 – Mar 2022

- Built responsive UIs with JavaScript, React.js, and CSS.
- Implemented REST APIs with Node.js (*Express*) to serve data from MSSQL.
- Designed and normalized relational database schemas; defined tables/relationships and wrote T-SQL queries.
- Integrated Front-End, Back-End, and database to deliver a full-stack capstone web app.

EDUCATION

Computer and Instructional Technologies

Feb 2020

Uludag University

PROJECTS

Side Projects

I design, build, and deploy end-to-end web and mobile projects in my personal time, using React, React Native, Go (*Fiber*), Node.js (*Express*), C# (*.NET*), MSSQL, and PostgreSQL.

SKILLS

- Languages:** JavaScript, TypeScript, Go, C#
- Front-End Tech:** React, React Native, Angular, HTML5, CSS3/Sass (SCSS), Tailwind, MUI
- Back-End Tech:** Express (*Node.js*), Fiber (*Go*), .NET (*C#*), REST APIs
- Databases:** PostgreSQL, MSSQL/T-SQL, MongoDB
- Testing:** Vitest, Jest, Unit Testing
- CI/CD & Version Control:** Git, GitHub, Azure DevOps
- Language:** English – B2 (*Upper-Intermediate*)
